

# Properties of Matter

## PowerPoint Notes

Matter is anything that has mass  
and takes up space.

Properties are how we describe  
and classify matter.

### States of Matter

State of Matter	Description	Drawing
Solid	has a definite <u>shape</u> and <u>volume</u>	
Liquid	has a definite volume, but <u>its shape changes to match its container</u>	
Gas	does not have a definite <u>shape</u> or <u>volume</u>
