5.5A

Matter

Name:

Anything that has mass and takes up space

Physical Properties

Observation

Measurement

Mass	Magnetism	Physical State	Relative Density	Solubility
Tool: Triple beam balance Units: grams The <u>measure</u> of the amount of <u>matter</u> in an object.	Tool: magnet Magnetic Steel Iron nickel aluminum Cobalt Not Magnetic Copper Aluminum Cotton rubber wood Plastic		Float in water ↑ less dense Sink in water ↓ more dense	Dis__ves Does _____ dissolve
